Application for Approval of a Portable Storage Container (PSC)

1. Read all instructions carefully. **The Board desires to provide courteous and timely service to all applicants. To maximize its efficiency and the level of service, the Board will process complete applications only.** Incomplete applications will be returned to you.
2. **Please type or print when completing this form.**
3. **Include all supporting documents.**

SECTION 1 – OWNER

Owner: The name of the person or business that owns the PSC.

Owner: _____

Address: _____

(Street Address)

(City)

(State)

(Zip)

Phone No.: _____ Email: _____

Contact Person: _____

SECTION 2 – MANUFACTURER

Name: The name of the person or business that manufactured the PSC.

Name: _____

Address: _____

(Street Address)

(City)

(State)

(Zip)

Phone No.: _____ Email: _____

Contact person: _____

National Board of Boiler and Pressure Vessel Inspectors (NBBI) "R" stamp certificate number: _____

American Society of Mechanical Engineers (ASME) "U" stamp certificate number: _____

United States Department of Transportation (DOT) "CT" number: _____

SECTION 3 – PSC INFORMATION

Mfg. date: _____ Distance from the outside bottom of the container to the ground: _____

Container

Manufacturer: _____ Water capacity (gal): _____

Serial No.: _____ National Board No.: _____

Mfg. date: _____ Length (OL): _____ Diameter (OD): _____

Working Pressure (WP): _____

SECTION 4 – PLANS AND SPECIFICATIONS

The following documents must be provided to the Board office with this application:

- U-1A data report for the container.
- Documentation that any modifications to the container were in accordance with the ASME code under which it was designed and built.
- Piping and instrumentation diagram (P&ID) for the PSC.
- Documentation from the manufacturer that verifies the PSC complies with the DOT requirements for cargo tank service if the container is attached to either a trailer or semitrailer running gear, or the attachments to the container to make it a vehicle, so that the unit can be moved by a conventional over-the-road tractor. *NFPA 58 (2020) 5.2.7.2*
- Documentation from the manufacturer that verifies the PSC was attached to the legs or supports in accordance with the ASME code under which the container was designed and built. *NFPA 58 (2020) 5.2.7.3*
- Scale drawing with structural calculations for the PSC that detail the container, running gear or skid, valve protection, pull-away protection, and structural supports. All of the structural calculations must be “wet stamped” by a Nevada licensed professional engineer.

PLEASE NOTE: Other supporting documents may be required to be submitted prior to the approval of the PSC for use.
